# AVANTECH YOU

by Hettich

AvanTech YOU is a design conscious home owner's dream. It allows an unparalleled amount of individualisation and has exceptional quality and performance.

*Hettich is proud to bring you AvanTech YOU from Europe to the New Zealand industry. We look forward to seeing the stunning interior solutions it helps to create.*

With design focused innovations, including DesignCapes and Design Profiles, AvanTech YOU offers the broadest choice of colours and materials. It is the perfect drawer range for New Zealand's bespoke build culture. Where colour has been the focus in all other aspects of interior design, now too is it customisable in and outside your drawers.

All adjustments and fittings are housed internally for an uninterrupted inner and drawer side and a modern

aesthetic. This gives you a look like nothing else on the market. But it is not all about the way it looks. The premium quality of AvanTech YOU mean you'll have cabinetry that works flawlessly for years to come.

A tailored selection of matching interior organisation and waste management accessories lets you put the finishing touch on your home.

# THE AVANTECH YOU DRAWER

**AvanTech YOU is designed to let  
your living space reflect your  
personality and lifestyle.**

A slim 13mm profile, full sides,  
and uninterrupted appearance  
enabled by invisible screws  
and fittings creates a sleek,  
modern foundation on which  
to build your space.

AvanTech YOU then lets you  
individualise your design through  
Design Profiles, a colourful  
accent, and DesignCapes,  
which change the colour of  
your drawer sides entirely.

# DESIGN DIVERSITY

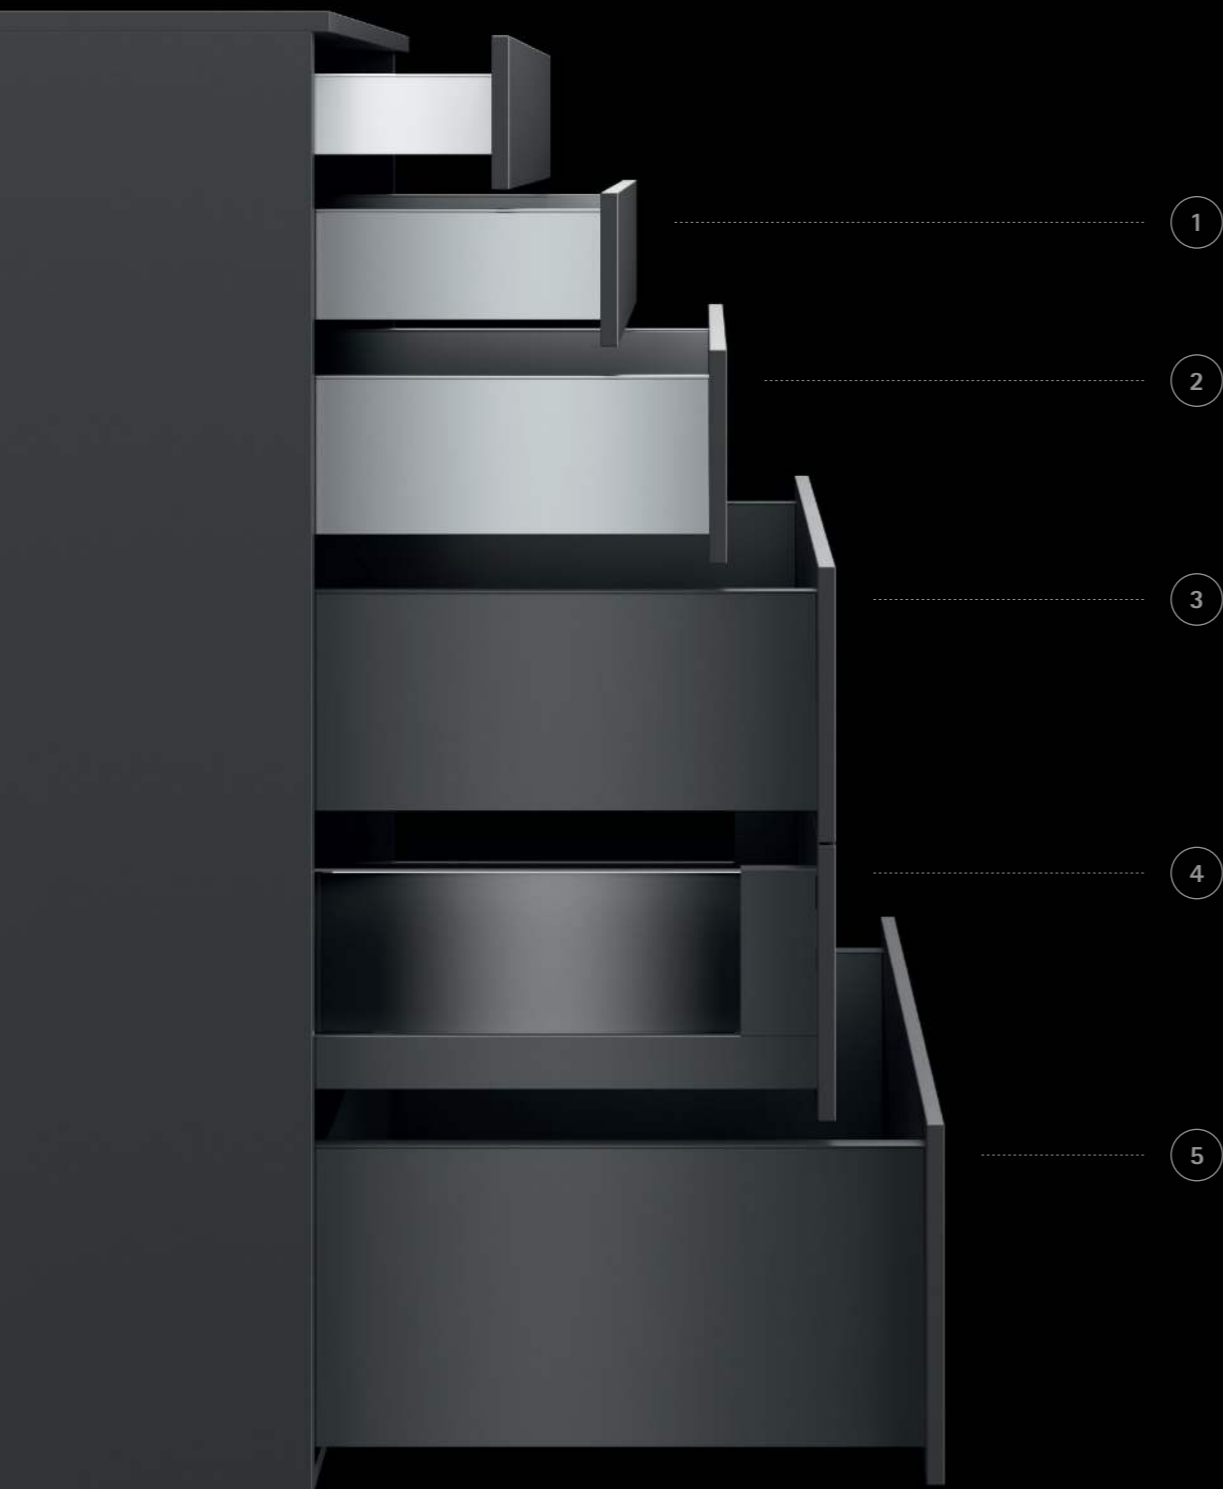

## DRAWER SIDE PROFILE COLOURS

## Design Variety & Creative Flexibility

### COMPONENTS KEY

- |   |              |   |                  |   |            |
|---|--------------|---|------------------|---|------------|
| 1 | 101mm Height | 4 | Inlay Drawer     | 7 | DesignCape |
| 2 | 139mm Height | 5 | 251mm Height     |   |            |
| 3 | 187mm Height | 6 | Designer Profile |   |            |

# DESIGN PROFILES

An opportunity to add a colour accent, or match with existing drawer sides. Design Profiles sit neatly at the top of your drawer side for a flash of colour every time you open it. Profile colours include white, silver white, silver anthracite, aluminium, stainless steel, chrome, walnut or oak.

## DESIGN PROFILE ACCENT COLOURS

- 1 Walnut
- 2 Oak
- 3 Chrome
- 4 Stainless Steel
- 5 Aluminium

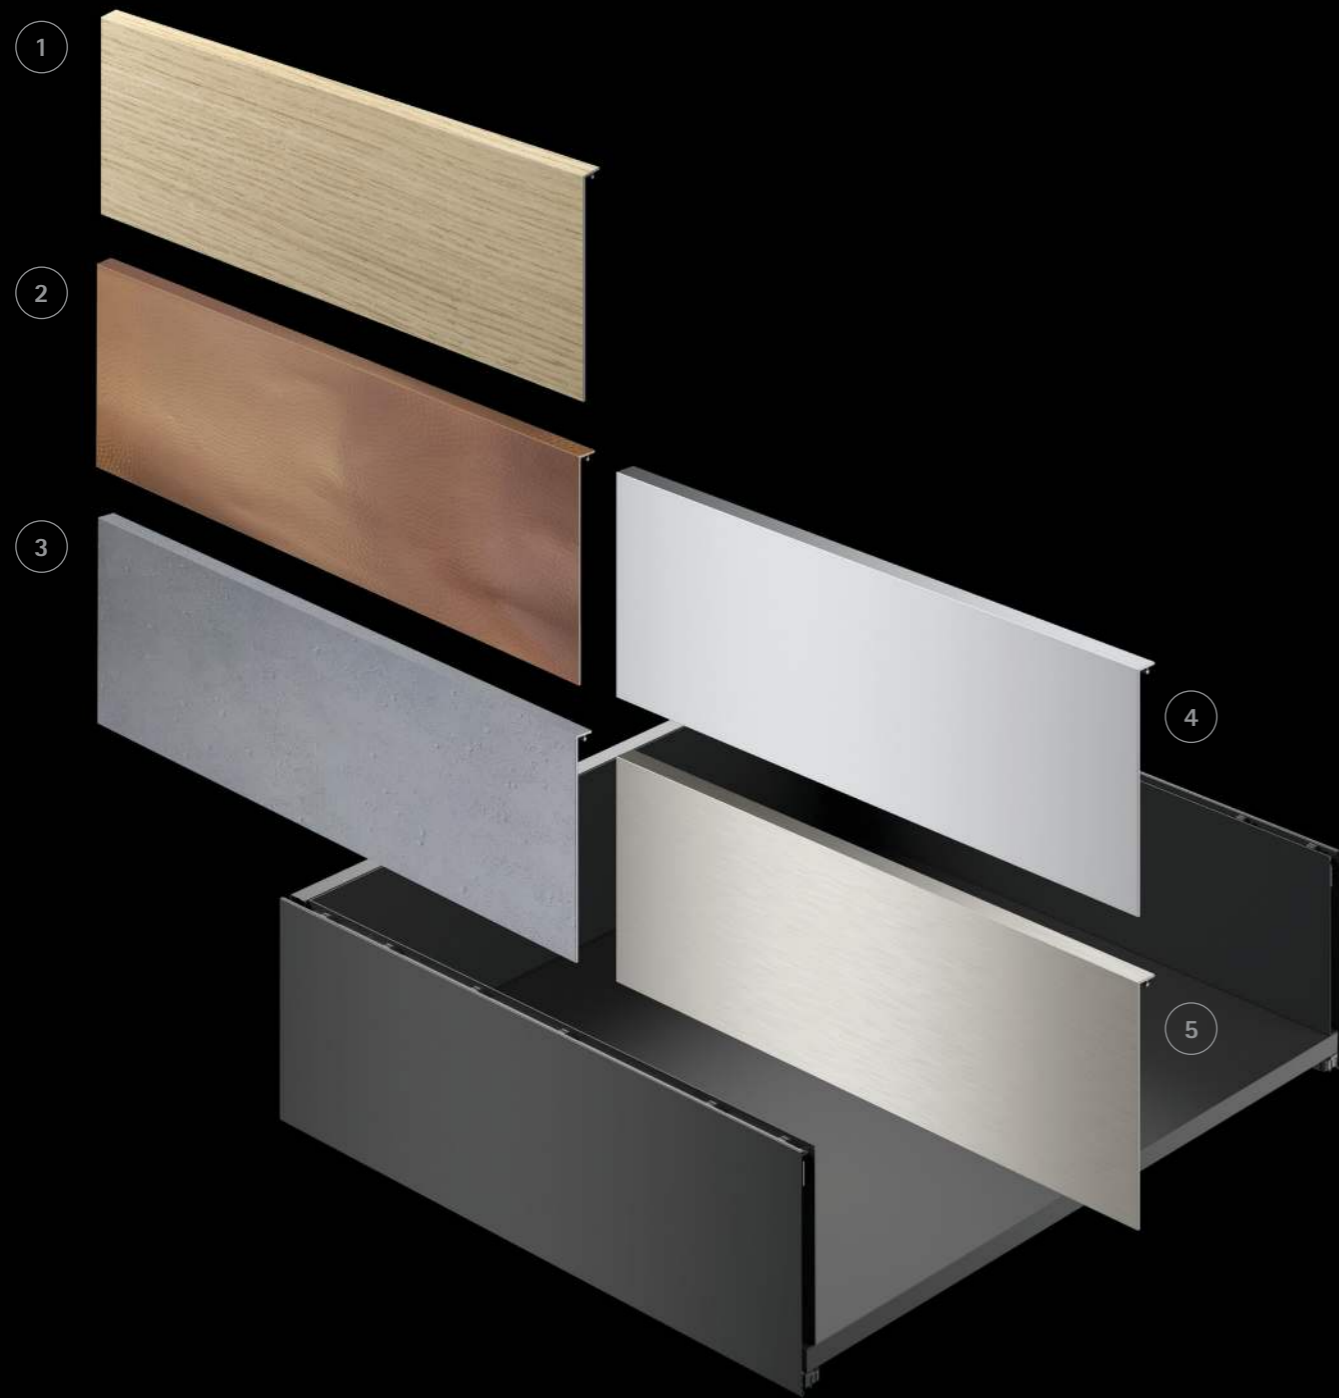

## DESIGN PROFILE MATCHED COLOURS

- 6 Anthracite
- 7 Silver\*
- 8 White

*\*Available by special order only*

# INTRODUCING DESIGNCAPES

DesignCapes are interchangeable cloaks for drawer sides. That means you can make your drawer side whatever colour you want. Our modern colour set includes Aluminium, Stainless Steel, Oak, Hammerblow Copper and Concrete. DesignCapes can also be custom coloured to almost any colour or print by powder-coating.

# YOUR HOME PROJECT CHECKLIST

This checklist will give you peace of mind in your next home project, and ensure you have a design that works for you as well as look good. Use it room by room to keep yourself on track.

- What is your budget for this room? -
- What are your non-negotiable must have features? -
- How would you describe your style in one word? -
- Are you using a contractor for this room or project? -

*Insist on AvanTech YOU for your next project and create something truly individual. As individual as you are.*

	Yes / No	Anything else you want to remember?
<b>DESIGN, STYLE &amp; LAYOUT</b>		
Major structural, plumbing or electrical changes		
Strong natural lighting		
Are the entryways and doorways, existing or new? What type of door do you require?		
What shape, size and style of windows are you using?		
<b>STORAGE &amp; CABINERY</b>		
What will this room be used for?		
Amount of storage & shelving required		
Cabinetry types, drawers, cupboards, or open shelving?		
Access to cupboards, shelves, drawers, and ensuring it is safe for the people using it		
Handles or handleless?		
Lifetime - how long do you need the cabinetry to last?		
Do the openings and fixtures work in the available space and are they the best option?		
Premium, intermediate, or elementary level cabinetry?		
Fixed or movable storage solutions		
<b>APPLIANCES &amp; ELECTRICAL</b>		
Power points		
Any new wiring required		
Locations of major appliances, and mounting, plumbing or other allowances for those appliances		
Smart home enhancements		
Lighting		
Ventilation		
Heating & cooling		
<b>FINISHINGS</b>		
Insulation - underfloor, walls & ceiling		
Sustainability fixtures, including solar panels, double glazing, or electricity saving		
Floor and floor coverings		
Paint or wallpaper		
Window dressings, such as curtains, blinds or drapes
