

# CADRO

A frame system with creative freedom  
for your residential and commercial space

Passionate about interiors

  
**Hettich**

Cadro is a practical interpretation of frame design. It is suitable for many residential and commercial applications, including kitchen islands, bathroom vanities, walk-in wardrobes, or retail fit-outs and hospitality.

- A narrow silhouette for a feeling of lightness, or an industrial style
- A stand-alone frame, or extension to traditional cabinetry
- A lightweight cabinetry base in black aluminium
- Furniture that can be wall mounted or floor standing with special fixtures
- Maximise visual impact with specialized LED lighting and glass panel enhancements.

Compatible with Hettich's award-winning fittings to offer a complete cabinetry system.  
Sensys hinges | AvanTech YOU thin-walled drawers | Slideline M sliding doors

## design

Practical but free design potential

## create

Build the structures you need with connectors

With Cadro, Hettich brings its expertise in cabinetry fittings to expand the design potential of a classic aluminium frame. In a vogue matt black, Cadro has the potential

to be everything but a standard cabinet. Compatible with glass shelving, panels, hinged doors, sliding and folding door fixtures and AvanTech YOU drawers.

*For full creative freedom, Cadro comes with a comprehensive range of connectors to facilitate the form each design needs. Fixed and variable nodes spanning 360° provide design complexity that allow Cadro to behave as a near complete cabinetry system.*

## a forward thinking frame system

Cadro by Hettich supports an extensive number of fittings and connectors, to create the furniture and cabinetry for any design.

material	aluminium
colour	matt black

drawer compatibility

## cadro

Recreate this design using the Cadro framing system in matt black with Prime Acrylic panel in matt black. The distinctive framed aesthetic of the counter is characteristic of drawer design with Cadro. A wall-mounted overhead cabinet with sliding doors and open glass shelving creates an effective display. Combined with an enclosed overhead with hinged doors for further storage, Cadro offers an entire kitchen solution.

## in the kitchen

An area integral to overall interior design, the kitchen benefits hugely from a range of design options

A kitchen island with an open glass display and push to open drawer for additional storage. Pair with Lighting for Cadro and AvanTech YOU to get visual impact and functionality.

Cadro makes organising easy with a variety of display options. Connect it to existing overhead cabinetry to make use of space efficiently.

## in the home

Custom furniture in the home allows its owner to fully embrace their personal style.

Create wall mounted shelving with lighting to draw attention to displayed decor.  
Coordinate coffee and side tables in the living area.

## in the wardrobe

Customisable for all wardrobe needs, be it shirts, shoes, handbags or jewellery.  
Mix glass, open and enclosed cabinets to meet the needs of seeing and storing.

Create a space that caters to your needs, like a walk-in wardrobe with retail styling for a premium experience every day.

## in the bathroom

Elevate the bathroom space while streamlining creation by using one system throughout.

A modern narrow framed vanity with a wide, high-sided drawer for storage.

A striking, wall-mounted mirror cabinet with open shelving for everyday items and closed cupboards for everything else.

Illuminate your favourite things with integrated lighting options.

HOTEL BAR

HOTEL BAR

HOTEL

Recreate this design using the Cadro framing system in matt black with glass shelving. Place a mirrored wall behind the shelving unit, and mount coloured glass doors for visual interest. To complete the aesthetic, pair with geometric dining tables.

# for hospitality

An intricate and multi-storage counter top, combine back-lit panels, glass shelves, and transparent doors for a delicate but impactful bar

## for the office

Create an industrial modernised setting for the office.

- Display documentation neatly with customised height and width
- Position on walls or on the floor to take advantage of space
- Store items away safely with sliding or hinged doors

# for retail fit outs

Cadro contributes to a utilitarian aesthetic in a retail setting

- Light but durable display islands with wide AvanTech YOU drawers and see-through glass tops
- Hanging units with drawers below for additional sizing or stock
- Closed glass cabinetry for secure display
