Introducing our new range of outdoor hardware.

They are designed to withstand the tough climate. We use high-quality materials with advanced German engineering to ensure they can handle fluctuating temperatures and humidity. Don't miss out on the comforts of storage organisation, customisation and soft-closing functionality. It's living for everyone, everywhere.

Design with Hettich.

Proven through effective testing for corrosion resistance, meeting international standards. Create the ultimate outdoor living space with our hinges, drawers and runners. Ideal for coastal homes, indoor pools, tiny homes/caravans and gyms.
