

TopLine L

Sliding Door System

TopLine L sliding door fitting from Hettich offers a new dimension of practical convenience in sliding doors for cabinets and wardrobes.

With TopLine L, heavy doors run smoothly, almost appearing to float, creating a fascinatingly new experience in convenience. The Silent System technology ensures first-class practical convenience and a luxurious feel, thanks to gentle and quiet door operation.

The TopLine L sliding door fitting offers an elegant appearance. With almost inaudible and luxuriously smooth running action, doors open and close with a particularly gentle action. The soft closing element is easy to fit in the runner profile in a matter of seconds, ensuring that doors close silently and softly.
